

Installation and Upgrade Notes for the Win32 Version of JamNNTPd.

System Requirements:

WinXP, Win2003, Win2008, WinVista, or Win7 -- 32 or 64bit.

Visual Studio 2010 Redistributable Package needed on some systems – likely included by other applications already. Zipfile contains the packages from Microsoft in the ReDist directory.

Extract file into a convenient directory structure of your liking [C:\BBS\JamNNTPd ?]

Configure Allow, Groups, and Users as needed – no changes needed from prior versions.

Run and Enjoy!
